

Motor Type	BLDC
Charging Time	5-5.5 hours
Front Brake	Disc
Rear Brake	Disc
Body Type	Tubuler monocoque
Curb weight	110 kg
Ground clearance	175 mm

Battery and Transmission

Drive Type	Hub Motor
Motor Type	BLDC
Motor Power	1500 W
Starting	Main key start
Transmission	Hub Motor direct drive

Features and Safety

Braking Type	Combi Brake System (Hydraulic disc brake)
Charging Point	Yes
Speedometer	Digital
Console	Digital
Pass Switch	Pass Switch Yes
Clock	Yes

Anti Theft Alarm	Yes
------------------	-----

Passenger Footrest	Yes
--------------------	-----

Chassis and Suspension

Body Type	Electric Bikes
-----------	----------------

Front Suspension	Telescopic
------------------	------------

Rear Suspension	Reversible spring
-----------------	-------------------

Electricals

Headlight	LED
-----------	-----

Tail Light	LED
------------	-----

Turn Signal Lamp	LED
------------------	-----

Battery Type	NMC
--------------	-----

Battery Capacity	74 V, 40 Ah
------------------	-------------

Low Battery Indicator	Yes
-----------------------	-----

Tyres and Brakes

Tyre Type	Tube less
-----------	-----------

Wheel rim Size	Front :-304.8 mm, Rear :-304.8 mm
----------------	-----------------------------------

Wheels Type	Alloy
-------------	-------

Front Brake	Disc
