

ROYAL ENFIELD HIMALAYAN

HIMALAYAS.

BY

THE

BUILT

A full-page background image of a vast, rugged mountain range. The mountains are layered, with some peaks covered in snow or light-colored rock, contrasting with the darker, rocky slopes. The sky is blue with scattered white clouds. In the foreground, a person is riding a motorcycle on a dirt road, kicking up a cloud of dust. The overall scene conveys a sense of adventure and exploration in a high-altitude environment.

**ROYAL ENFIELD'S HISTORY WITH
THE HIMALAYAS IS AS DEEP AS
THE MOUNTAINS ARE TALL.**

A MYSTICAL PLACE THAT IS ALWAYS
CHANGING, AND CHANGING FAST.

WHAT IS TRUE FOR THE MOUNTAINS
IS TRUE FOR LIFE.

PATHS CHANGE.

GOALS CHANGE.

ROLES CHANGE.

WE CHANGE.

EVOLVING FROM FIRST-TIME
RIDERS TO SEASONED
HIGH-ALTITUDE EXPLORERS.

DISCOVERING WORLDS
WE'VE NEVER SEEN.

DISCOVERING OURSELVES.

THERE IS NO PREDICTABLE
PATH ON THIS JOURNEY.

THERE WAS NO ONE
MACHINE DESIGNED
FOR THIS JOURNEY.

UNTIL NOW.

ONLY

EVERYTHING

YOU NEED

The all new Himalayan is an extension of that, taking everything that was great about the original and building on it. Nothing has been added without necessity. There are no features included simply to satisfy the keyboard warriors. The new Himalayan is about purpose, simplicity, efficiency; just like the original, but more.

We know what it means to grab a bike and go for a blast with some friends, just as we know how it feels to be cold, tired and with another three hours of riding laying ahead. The Himalayan is designed to adapt to all conditions; from its river-busting high air intake to its tough frame and luggage bars ready to take a beating when things don't go as planned.

**THE ALL-NEW HIMALAYAN
IS A CREATURE OF
ITS ENVIRONMENT.
IT IS BUILT BY
THE HIMALAYAS.**

BUILT FOR ALL ROADS. BUILT FOR NO ROADS.

Capable but not intimidating; that has been the ethos of the Himalayan from the start. So it was crucial when developing the new model to keep that in mind - for all the improvements to power, performance and handling, the Himalayan is still an easy, forgiving bike to ride. Superb balance at low speed, combined with the new light-action clutch and smooth throttle response from the Ride by Wire system make easy work of tight trails and tight traffic alike.

MORE POWER TO THE PEAKS

Compact, lightweight and delivers 40hp through its new 6-speed gearbox. But you don't need to know any of that. What you need to know is that like the high-altitude Sherpa that inspired it, this engine has the power to pull you out of a sandy hollow at 5,000 meters above sea level, while being smooth enough to enjoy the 5-hour trip back home afterwards.

SINGLE CYLINDER LIQUID COOLED 452CC ENGINE 40.02 PS @8000 RPM AND TORQUE: 40 NM @5500 RPM

ROYAL ENFIELD
TRIPPER Dash

What do you need to know? The new TFT display on the Himalayan gives you the important information where you need it, wherever your plan takes you. Full map navigation, phone connectivity and the ability to control music for your adventures.

4 INCH ROUND TFT DISPLAY — FULL MAP NAVIGATION WITH PHONE CONNECTIVITY — MUSIC CONTROLS

VEHICLE DYNAMICS

FITS LIKE AN ADVENTURE GLOVE

From the versatile 21" front and 17" rear wheel combination to the large enduro footpegs and wide handlebars, the Himalayan works with you in all situations, on- or off-road. The slim seat and tank let you get your feet firmly on the ground when you stop, while increased ground clearance and longer travel suspension let you choose the roughest tracks.

VERSATILE 21" FRONT AND 17" REAR WHEEL COMBINATION — INCREASED GROUND CLEARANCE + TRAVEL SUSPENSION
