

The New Mercedes-Benz GLS.

Mercedes-Benz

Committed to greatness. The new GLS.

Petrol Engine

GLS 450 4MATIC

The M256M engine, which has been improved in terms of power and torque, combines superior performance with the pleasant running smoothness of an in-line 6-cylinder petrol engine. The electric additional compressor delivers high torque even at low speeds and the mild hybrid concept with integrated starter generator (ISG) provides additional boost and can help save fuel at the same time.

- Highly efficient direct injection system with 350 bar injection hydraulics for optimized fuel consumption and low raw emissions
- Bridges the time until the large exhaust gas turbocharger kicks in powerfully and creates an impressive starting experience without any turbo lag
- Electric additional compressor brings even more boost pressure and thus additional torque just above idle speed
- Twin-scroll turbocharger with air-water intercooling and dual-flow exhaust system - the channels of each three cylinders are separated from each other and only converge directly in front of the turbine
- Dethrottles the exhaust system, the engine reacts more directly to accelerator pedal commands and briefly generates up to 40 Nm of additional torque, for example for overtaking maneuvers
- NANOSLIDE[®] cylinder liners like Mercedes-Benz in Formula 1 - reliable lubrication, reduced friction and highly wear-resistant thanks to hard running surfaces with the finest pores for oil absorption
- Crankcase and cylinder head made of aluminum - this is alloyed with zirconium, which dissipates heat even more efficiently - for maximum performance and stability of the engine even at the limit, as well as high durability and reduced tendency to knock
- The exhaust gas aftertreatment directly on the engine optimizes catalytic converter temperature, while a coated gasoline particle filter retains soot particles.

Diesel Engine

GLS 450 d 4MATIC

The most powerful diesel engine in the history of Mercedes-Benz is receiving an update of its innovative technology components. The engine continues to set a benchmark in terms of driving dynamics and fuel consumption. More than an additional bonus: the six-cylinder in-line engine runs with unsurpassed refinement.

- The integrated starter generator (ISG), a 2nd generation mild hybrid, supports the combustion engine with up to 17 kW of additional power and 205 Nm torque, supplying the refrigerant compressor during stop phases, reducing system weight and increasing robustness.
- High-tech steel piston: lower thermal expansion and therefore friction compared to aluminum, at the same time even lighter and stronger
- NANOSLIDE[®] cylinder liners like Mercedes-Benz in Formula 1 - reliable lubrication, reduced friction and highly wear-resistant thanks to hard running surfaces with the finest pores for oil absorption
- Water-cooled charger housing and air-water intercooler - for more power and even more agile response
- Common rail direct injection with piezo injectors and a very high injection pressure of up to 2,700 bar - atomizes the fuel particularly finely and reduces soot formation and noise and improves engine warm-up
- Steel pistons with shaker cooling for a cooling effect through sodium-filled bores. In addition, cooling takes place via an annular cooling channel, which is cooled by engine oil under map control
- CAMTRONIC variable valve lift on the exhaust side makes exhaust gas purification even more efficient
- Two-stage exhaust gas turbocharger, connected in series, the high-pressure charger has a variable turbine geometry - for a convincing, sporty start
- The aluminum crankcase (engine block) and cylinder head reduce the engine weight and thus the weight on the front axle

AIRMATIC Package

In the AIRMATIC package, an adaptive damping system meets modern air suspension. The result: an intelligent comfort chassis that can automatically adapt to the driving situation, speed and load. This means you benefit from balanced driving stability with first-class comfort.

Adaptive damping system: The adaptive damping system reacts sensitively to unevenness. It is adjusted separately for each wheel and forms the basis for comfortable and relaxed travel.

Level control: The all-round level control in the DYNAMIC SELECT driving programs allows automatic lowering at higher speeds, improving driving stability and reducing wind resistance, while the load detection system ensures constant suspension level.

Lowering the rear: Lowering the rear makes it easier for you to load and unload heavy or bulky objects. The control element is located directly in the boot.

Car wash function: The car wash function is activated through the media display menu, preparing the vehicle for entry by deactivating the rain sensor, closing side windows and sunroof, folding exterior mirrors, raising the body, and switching to recirculation air conditioning.

Mercedes-Benz GLS

Design

MULTIBEAM LED

The MULTIBEAM LED offers intelligent light modes, including extended fog, cornering, country road, city, bad weather, and motorway lights. It also features an adaptive high beam assistant plus, which can control headlight LEDs to adapt to traffic situations. The system also has an ultra-wide beam, improving visibility during cornering and enabling off-road driving. The system also features an extraordinary light show when unlocking or locking the vehicle. Additionally, it can adjust road lighting based on traffic conditions, ensuring a safe driving experience.

Adaptive Highbeam Assist Plus

Permanent high beam without dazzling oncoming traffic by leaving out the oncoming traffic or traffic in front. With the Adaptive High Beam Assist Plus, you can drive with constant high beam without dazzling others. The intelligent system uses high-precision LEDs to avoid oncoming traffic or vehicles in front. This means you don't have to constantly switch to low beam and can see the road and dangers better thanks to the long headlight range.

Panoramic sliding sunroof

Generous glass roof with electric sun blind, anti-pinch protection and PRE-SAFE® locking function. With the spacious panoramic sliding roof you will experience a fascinating feeling of freedom and a pleasantly bright ambience in the interior. Viewed from the outside, your vehicle looks particularly exclusive.

Aluminium-look, illuminated running boards with rubber studs

A real eye-catching feature are the illuminated, aluminium-finish running boards. They are mounted on the side at the height of the side skirts, thus making it easier for you to get into the front as well as the rear. Slip-resistant rubber studs ensure a firm foothold.

Mirror package

Your personal comfort thanks to, among other things, electrically folding exterior mirrors and automatically dimming interior mirror. You can fold the exterior mirrors electrically and make your vehicle slimmer at the touch of a button. Small parking spaces suddenly become big enough. The interior mirror can also register distracting headlights from behind. Depending on the glare and ambient light, it dims automatically and continuously.

Under body protection

The technical underprotection can protect the underbody from damage and reduce contamination of the engine compartment. The technical underprotection can protect the underbody of your vehicle from damage when driving off-road. In addition, it shields the engine compartment and thus effectively reduces contamination.

Interior Chrome Package

Stylish design elements in silver chrome refine the interior. The chrome package sets additional elegant accents in the interior with selected design elements. Numerous bezels are stylishly finished in silver chrome, e.g. the EASY-ENTRY switch, the decorative elements in the interior door area and cup holders.

- Controls and trim in the interior door area in silver chrome
- EASY-ENTRY switch in silver chrome
- Controls to the left of the steering wheel in silver chrome
- Hand flatterer, control switch and cup holder on the center console are made or framed in silver chrome
- Climate control panel in silver chrome

Widescreen Cockpit

Inspirational design meets a fully digital display with flexible presentation options: the Widescreen Cockpit enables information to be truly experienced. The desired content can be positioned individually and the host of functions controlled intuitively thanks to touch technology. Furthermore, you can select the display to suit your taste and give your cockpit an individual look. There is a choice of “Classic”, “Sport”, “Progressive” and “Subtle” display styles. You can also incorporate your desired style into the ambient lighting and select a suitable colour scheme.

Multifunction steering wheel in nappa leather

Elegant steering wheel in 3-spoke design with steering wheel shift paddles galvanized in silver chrome and touch control panels. The multifunction steering wheel in nappa leather combines fine materials with innovative ease of use. You can control the most important vehicle functions using the touch control panels without having to take your hands off the steering wheel.

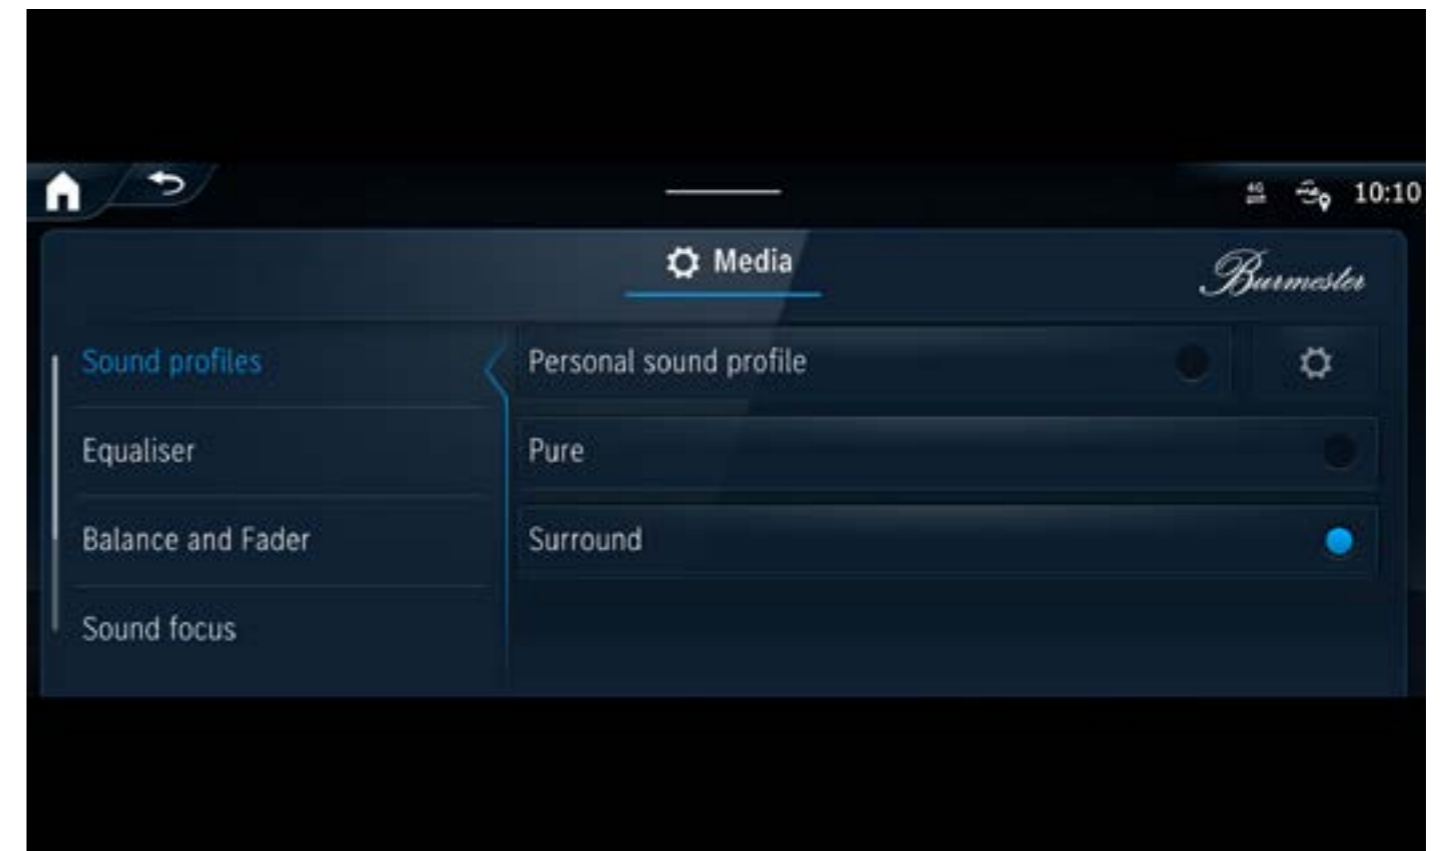

THERMOTRONIC automatic climate control

Automatic climate control with 5 climate zones, fine dust activated carbon filter, defrosting system and residual heat function. 5 climate zones enable an individual feel-good climate on board. The driver and front passenger as well as the rear passengers can determine the temperature and air distribution according to their personal needs. The climate settings can be saved and recalled at the touch of a button.

Burmester® surround sound system

- Experience premium sound quality with the Burmester® surround sound system featuring 13 speakers and 590 watts of system power.
- Immerse yourself in a captivating audio experience with Dolby Atmos® technology incorporated into the sound system. The 13 high-performance speakers deliver first-class surround sound, ensuring an exceptional auditory experience.
- Tailor your listening experience by optimizing the sound specifically for the front and rear seats, elevating your enjoyment of music and entertainment.
- Enjoy the renowned Burmester® sound that is synonymous with uncompromising quality and innovation in audio technology.
- Advanced noise compensation (VNC) dynamically adapts music and sounds to your driving situation.

Sound Personalization

Digital setup assistant for the perfect sound setup for your Burmester® sound system. A digital setup assistant works with you to determine your music preferences and adjusts the Burmester® sound system to your needs. It saves the result in a personal profile. This is how you can easily achieve your perfect sound setup.

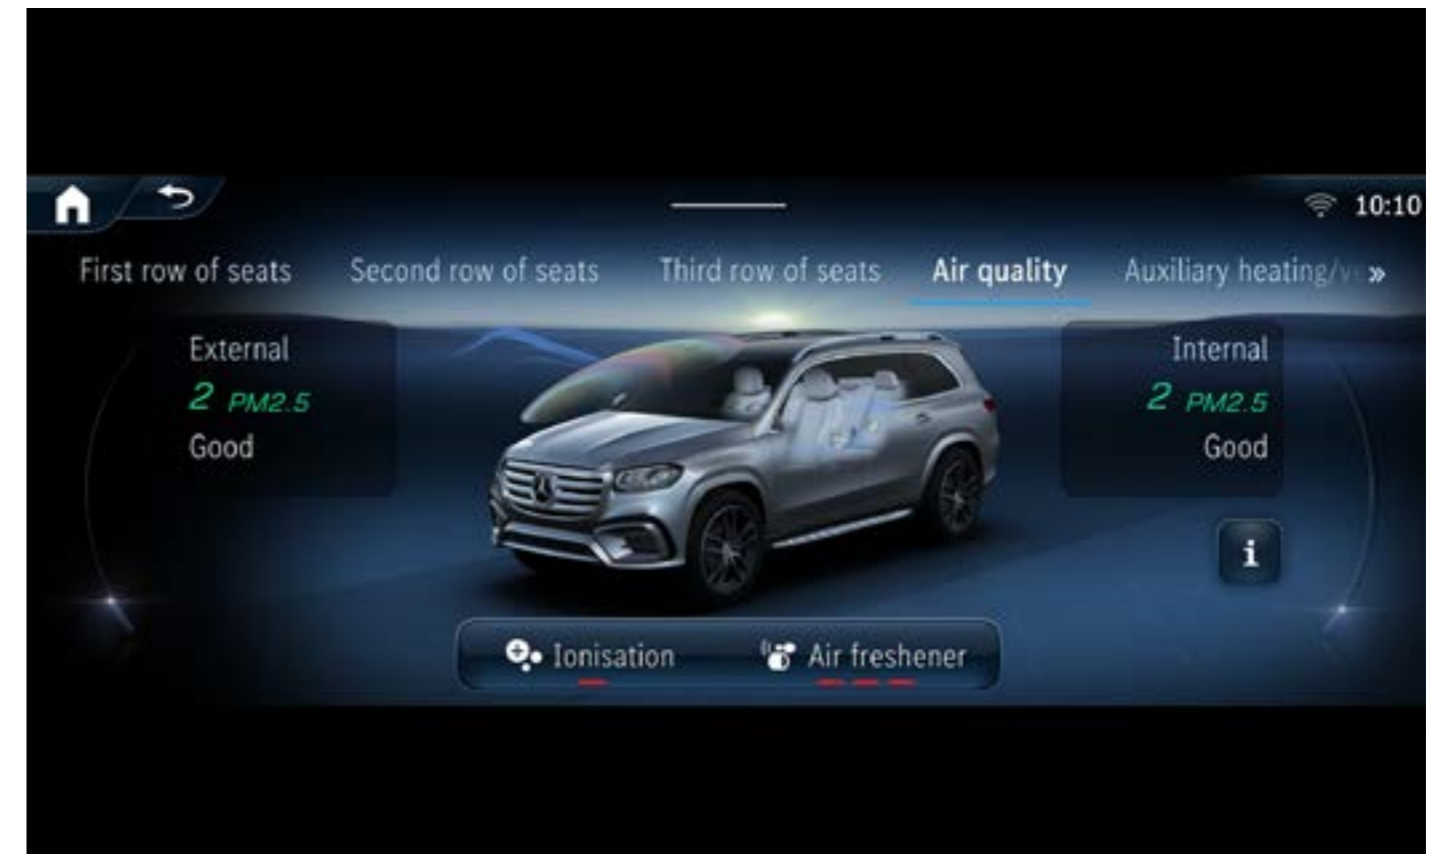

Wireless charging system for mobile devices at the front and rear

Wireless charging of your mobile devices in the spontaneous storage area. With just one movement of your hand, your smartphone is in its permanent place in the spontaneous storage area and is charged wirelessly there. Regardless of model and brand, Qi-compatible mobile devices charge wirelessly.

*Please read the disclaimer

Energizing Air Control*

Monitoring of air quality including a two-stage filter concept. ENERGIZING AIR CONTROL monitors the air quality for you using air quality and fine dust sensors. A two-stage filter concept reduces fine dust and most other inhalable pollutants. Depending on the measured value, your vehicle switches intelligently between fresh and recirculated air mode. *Available only in Diesel Variant.

Memory Package with seat kinematics

The vehicle offers a memory function with three storage options, including seat and steering column settings, ENERGIZING seat kinematics, and individual position profiles for reduced back strain.

Memory function: Memory function allows drivers and passengers to recall their individual settings, including seat adjustment options like height, cushion, and headrest alignment.

4-way lumbar support: The front seats' backrest curve can be adjusted individually for improved comfort and ergonomics, with two air cushions integrated and a 4-way switch for height adjustment.

PRE-SAFE®: The PRE-SAFE® system adjusts the front passenger seat position in critical driving situations, based on seat belt fastening or detection of a child seat.

The seat features 3-stage ventilation and 3-stage heating for a comfortable seating climate, with the ability to adjust the intensity of these functions separately or combined.

5+2 seater configuration

3rd row of seats for 2 additional people including EASY-ENTRY entry aid and folding center armrest in the 2nd row of seats. Use up to 7 comfortable seats as needed or easily expand the cargo space if you wish. Thanks to 2 full-size seats in the 3rd row of seats, your passengers can also enjoy a high level of travel comfort there. With the EASY ENTRY system, your passengers can sit comfortably in the 3rd row.

Chauffeur Package

The rear passenger on the side of the front passenger can move the front passenger seat forward electrically at the touch of a button. This creates a noticeably larger footwell that allows a very relaxed seating position and ensures a feeling of generous spaciousness. For comfortable travel with more legroom in the rear.

Rear Comfort Package Plus

Comfort features for the rear, including extra-soft comfort headrests and extended comfort center armrest. Thanks to the extra-soft comfort headrests and armrests, your rear passengers can lean back comfortably and enjoy the ride. In addition, the extended center armrest and center console offer various shelves and connections - for more order and function on board.

Comfort headrests: The head, neck and shoulder area are relieved and supported thanks to the individual adjustment options. Thanks to the tilt adjustment and an additional cushion, every passenger can find a comfortable head position. The special padding dampens vibrations and allows the head to rest gently.

Comfort center armrest: The high-quality padded armrests increase comfort, especially on long journeys.

Extended center armrest: with storage compartment for storing travel equipment and 2 USB ports for charging mobile devices.

Extended center console: There are 2 cup holders for the rear passengers. Here, drinks are always within reach and securely secured while you are driving.

Comfort headrests for the two outer rear seats

- Padded additional cushions
- Tilt adjustment
- Extended comfort center armrest integrated illuminated storage compartment
- 2 USB interfaces (5 volt charging port) expanded center console
- 2 cup holders

EASY-PACK tailgate

Electrically opening and closing tailgate with storable opening height. You can easily open and close the EASY-PACK tailgate electrically. This makes loading and unloading the luggage compartment even more comfortable. You can easily start opening and closing at the push of a button and interrupt it at any time by pressing another button. You can additionally lower the car from the rear. Lowering the rear makes it easier for you to load and unload heavy or bulky objects. The control element is located directly in the boot.

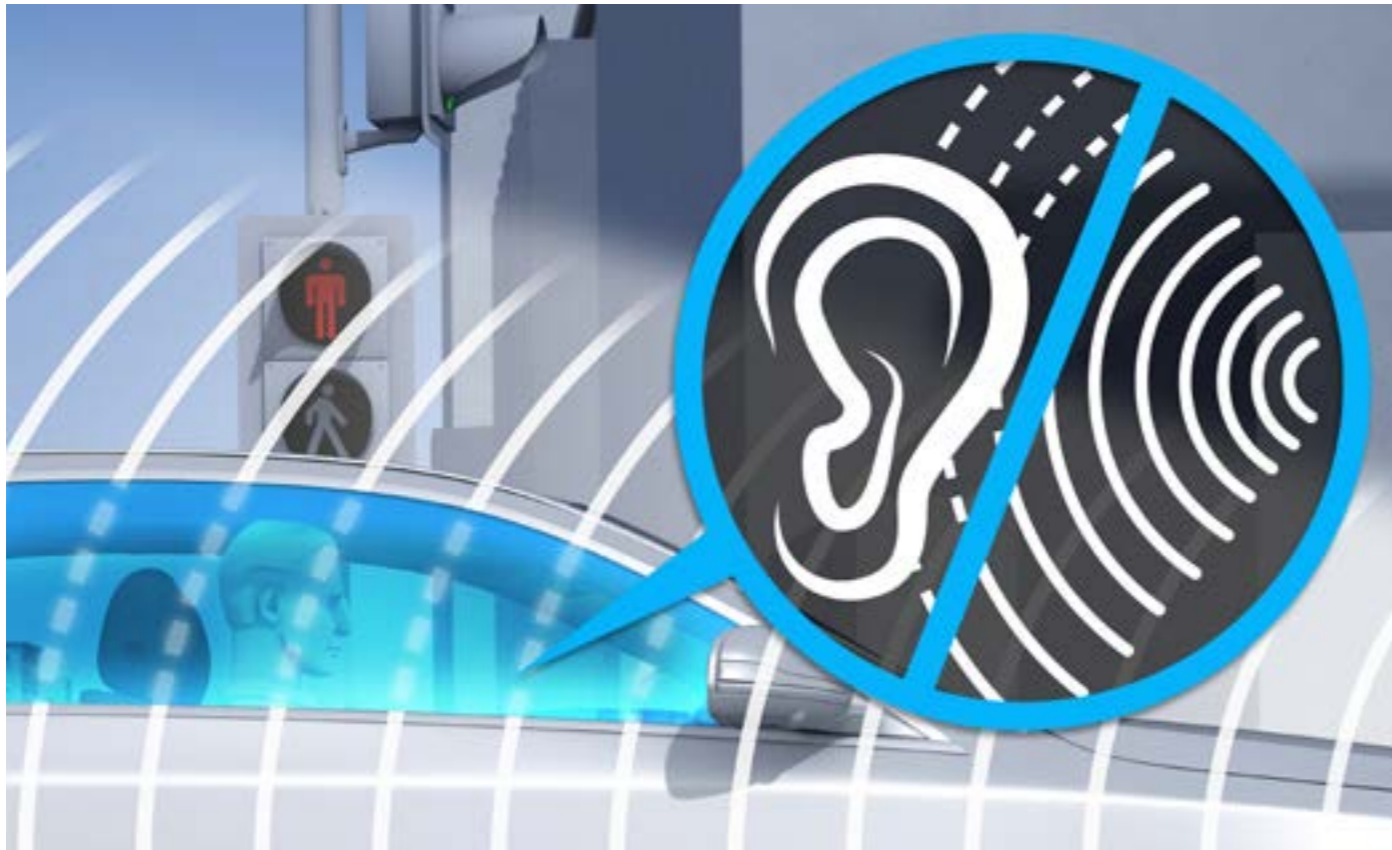

EASY-PACK cargo area cover

Removable roller blind to protect your luggage. A roller blind behind the rear seats protects your luggage from the sun and prying eyes. You can remove the EASY-PACK cargo area cover at any time and store it in the compartment provided under the cargo floor.

Acoustic Comfort Package

- Laminated safety glass for the front and side windows as well as additional insulation measures improve your noise comfort.
- Acoustic Comfort package reduces outside noises with sound insulation and laminated safety glass, providing a quiet travel atmosphere even at high speeds.
- The vehicle's windows are protected by an infrared film, blocking UVA and UVB rays, reducing heat and maintaining pleasant temperatures even on hot summer days.
- Sound insulation: The safety glass, coated with acoustic film and insulation, effectively minimizes external noise, such as those from vehicles, tunnel walls, or wet conditions.
- Infrared-absorbing film: The infrared-absorbing film on the windows effectively blocks UVA and UVB rays, reducing heat and maintaining a pleasant temperature even during warm summer days.

Velour floor mats

Velour floor mats in the respective equipment color with matching edging. The velour floor mats are designed and bordered in the respective equipment color. This means they fit perfectly into the interior design. The mats also protect the footwell from dirt - they can be removed, vacuumed or cleaned in no time.

Mercedes-Benz GLS

Technology

MBUX Entertainment

MBUX Entertainment offers integrated music streaming services and internet radio in vehicles, allowing users to choose their preferred music and purchase data packages through a third-party provider. Service availability may vary.

Music streaming: MBUX Entertainment offers TuneIn, a service that integrates music providers like Amazon Music, Apple Music, Spotify into vehicles, providing access to internet radio stations and podcasts.

Extended MBUX functions

MBUX offers personalized features like adaptive voice assistant, personal profiles, and prediction functions, transforming digital networking with online connection and WiFi hotspot capabilities.

Natural language understanding: The MBUX language assistant can recognize most infotainment and vehicle operation sentences, even indirect speech, and adjusts air conditioning temperature based on the user's response.

Learning-capable MBUX language assistant: The MBUX language assistant adapts to your voice, learning new buzzwords and changing language usage, and responds differently than stereotypically, enhancing understanding and interaction.

Personal profiles: even more personalization. Customize your mood by saving individual theme worlds, such as DYNAMIC SELECT driving programs, radio stations, and ambient lighting.

Prediction functions: Your vehicle functions as a personal assistant, suggesting your mother's phone number on the multimedia system on the day you frequently call her.

Hard-Disc Navigation

Navigation system uses local and online information to guide users to their destination quickly, using 2D and 3D map displays, route options, and flexible input options for efficient navigation.

Hard-Disc navigation: The system predicts potential routes to the destination in advance, including the fastest or non-toll road connections.

2D and 3D map display: The 2D or 3D map displays provide easy switching between views and a 3D image of the upcoming driving maneuver.

Operation: The Mercedes system uses touchscreen, steering wheel control panels, or MBUX voice assistant to input data and start route guidance, even understanding everyday language.

Online connectivity: Thanks to online connectivity, map data is updated as needed and automatically via the mobile network.

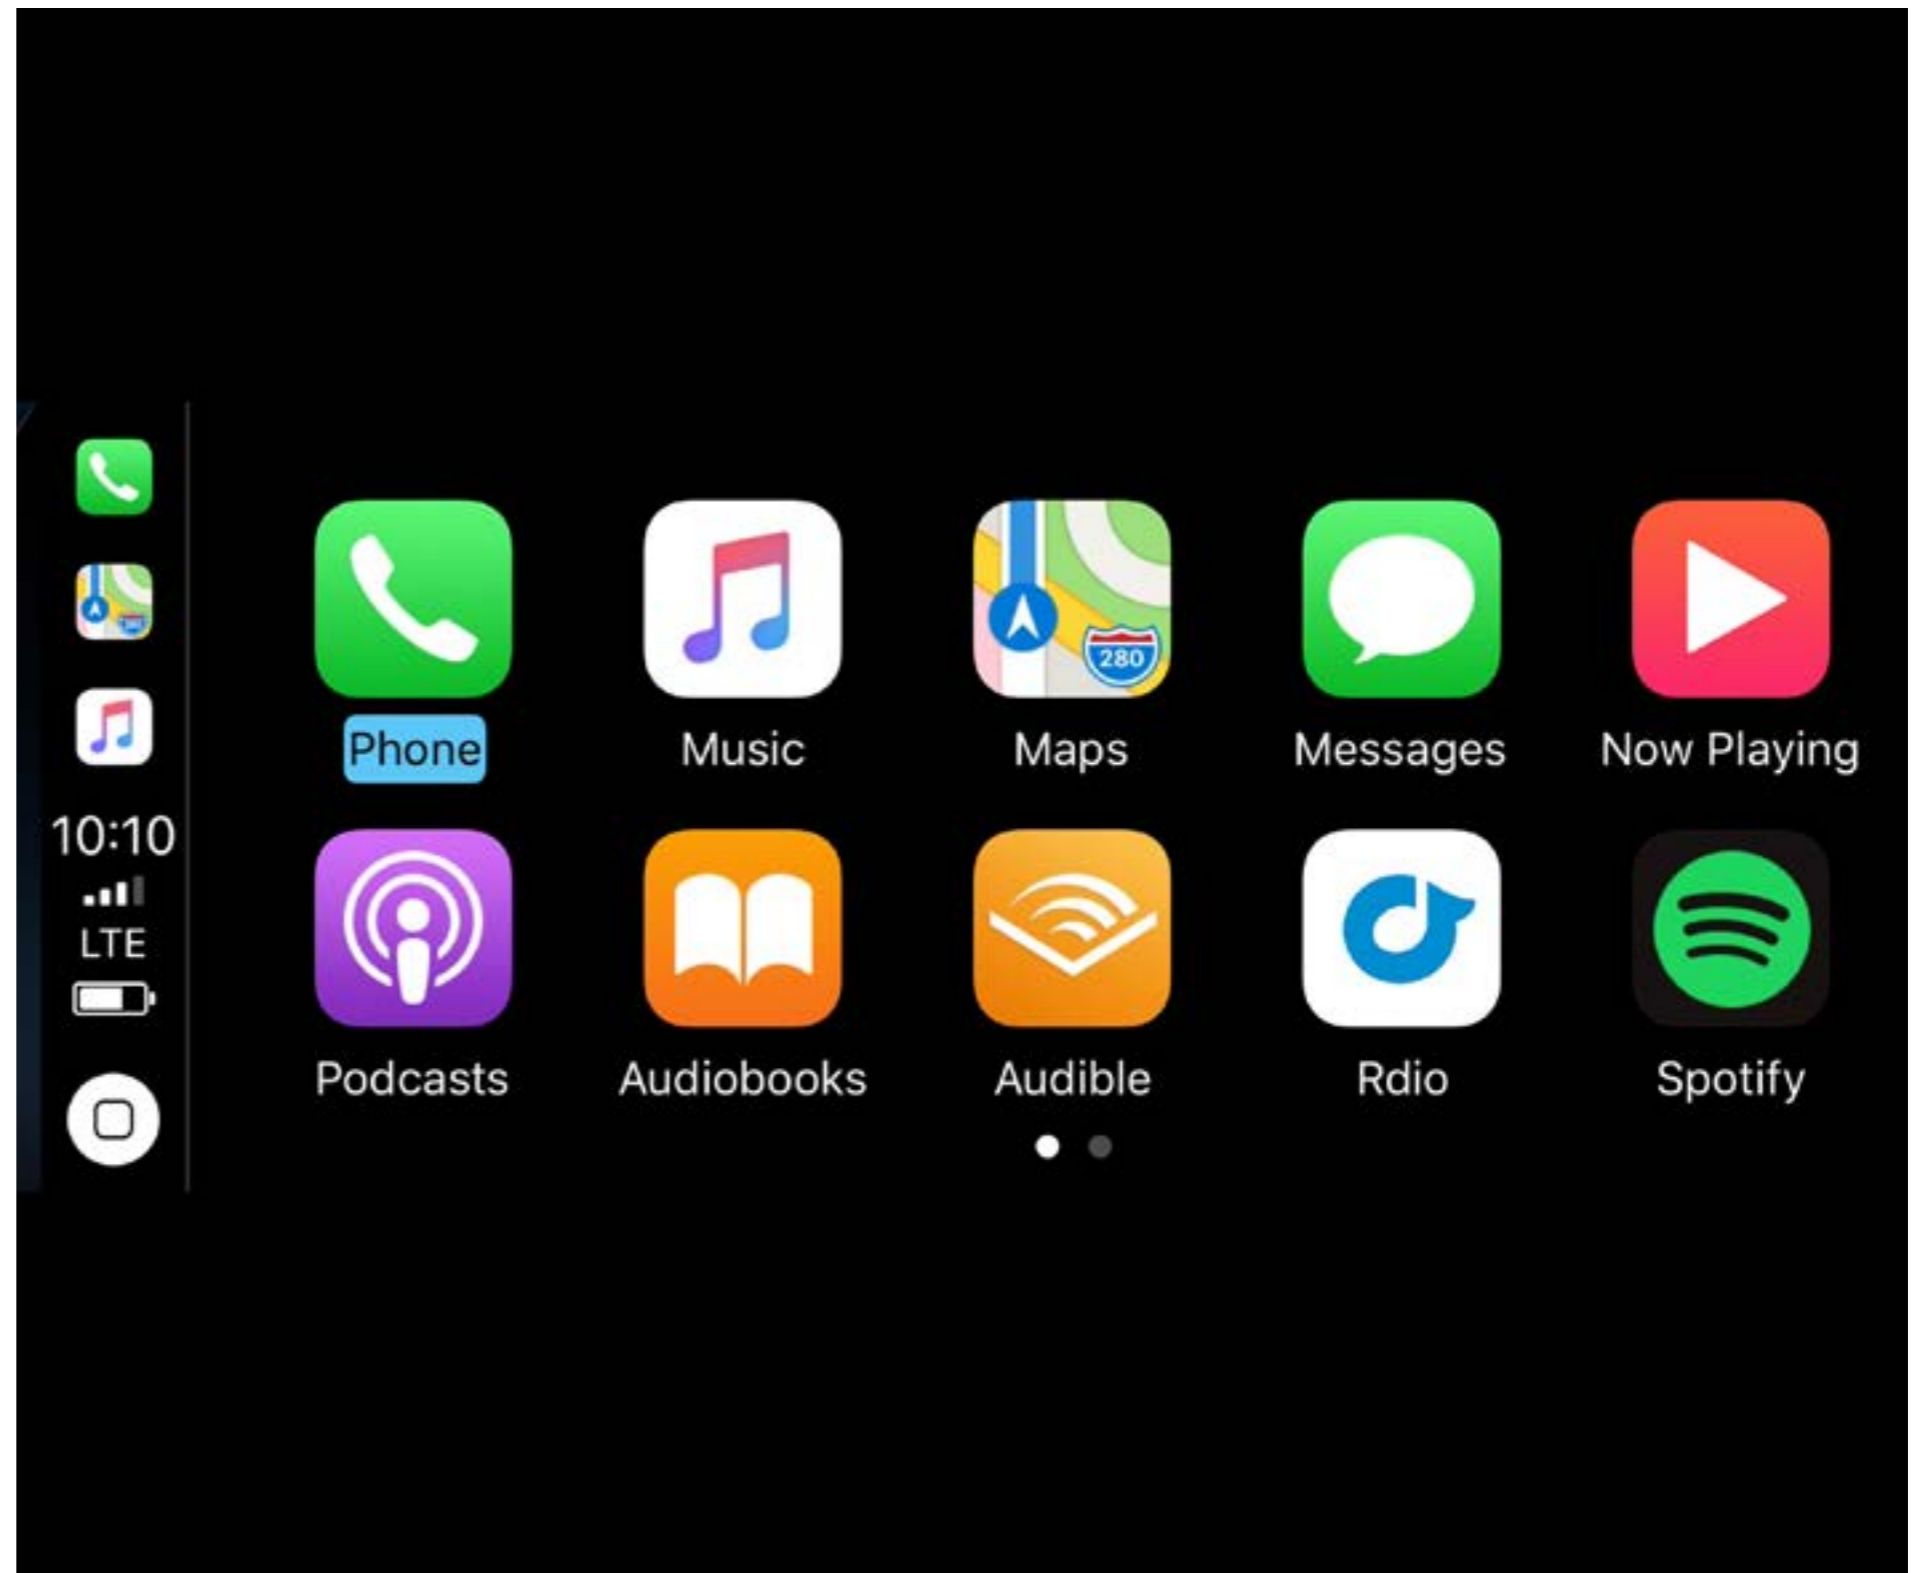

Smartphone integration

Optimized user interface: The available displays on the smartphone are designed to be even clearer for the user interface of the MBUX multimedia system.

Voice control: You can use the voice assistant to operate the most important smartphone functions.

Components:

- Wireless smartphone integration supports Android Auto™ and Apple CarPlay™
- Display apps from selected third-party providers
- Access to current software and data e.g. for navigation, traffic information, contact details, messaging, telephony, media, IP radio
- User interface optimized for driving
- Control of smartphone functions via voice control

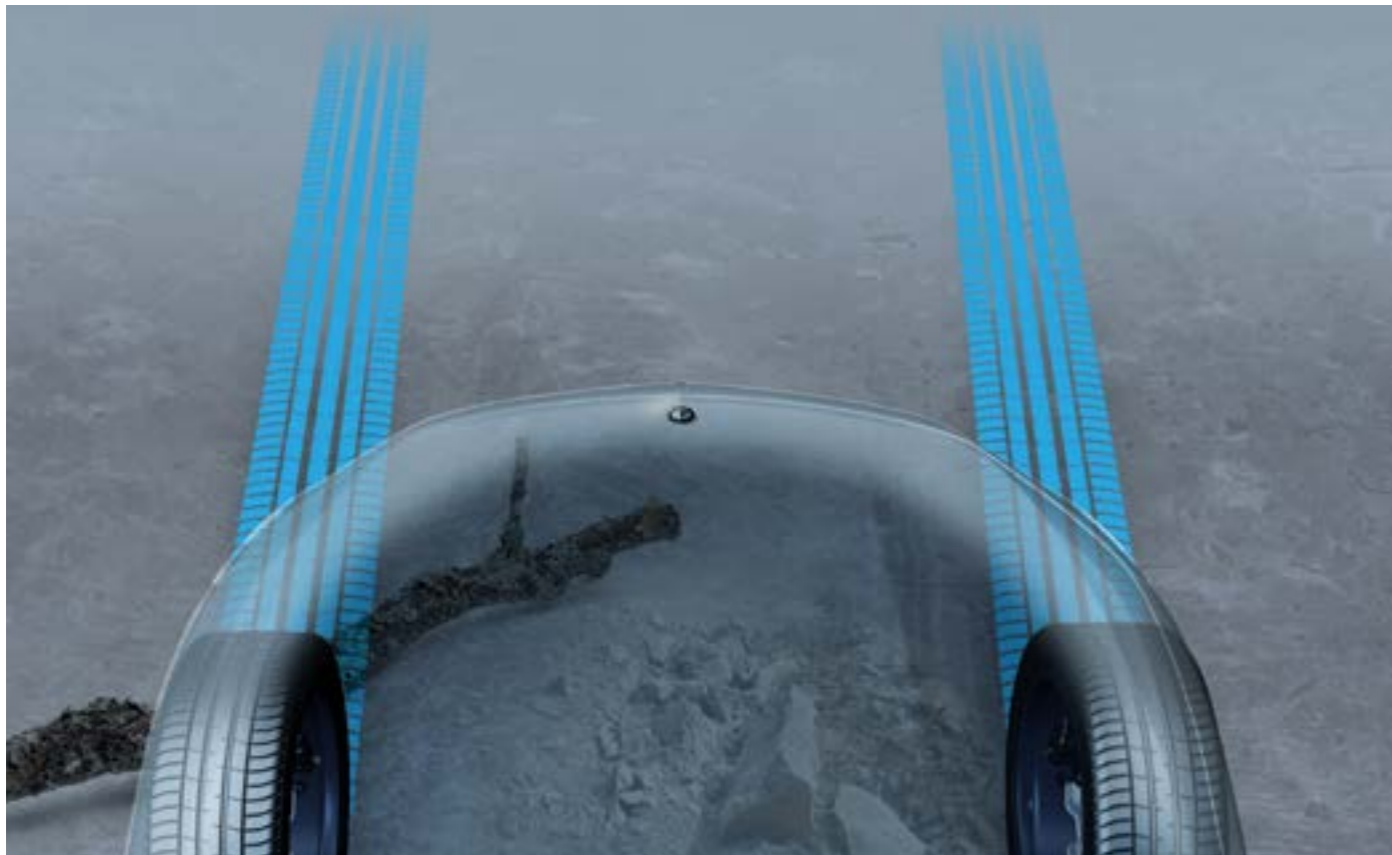

MBUX rear tablet

Wireless MBUX rear tablet, including access to the MBUX multimedia system and 7.4-inch screen diagonal. With the 7.4-inch MBUX rear tablet, you can access the MBUX multimedia system and control comfort features like a remote control. Another plus point: The MBUX rear tablet shows you the contents of the MBUX multimedia system in addition to the media display and the screens of the optional MBUX high-end rear entertainment. Extensive operating options: For example, you can easily put together a music playlist using the MBUX rear tablet. Or you can operate various comfort functions depending on the equipment: use the touchscreen to adjust the ambient lighting to your wishes and to regulate the temperature.

MBUX Rear Seat Entertainment System

The MBUX Rear Seat Entertainment System transforms the rear compartment into an attractive world of entertainment and a pleasant working environment. High-resolution touchscreens offer rear passengers a host of entertainment, information and communication options. You can connect your own media via various interfaces such as HDMI or Bluetooth: for example your mobile device, tablet or laptop. The two seats are also linked: If required, you can interactively move content from display to display. Choose between touch and voice input. the MBUX voice assistant recognizes from which seat a “Hey Mercedes” keyword activation is started.”

Transparent bonnet

Virtual view of the area immediately in front of the vehicle for improved maneuvering on off-road trips. The virtual view shows the area directly in front of your vehicle when driving off-road. This means you can maneuver confidently and avoid obstacles safely – even on rough terrain. Calculated from camera images, the hood appears transparent on the media display. Visualization of the lane helps to choose the optimal route.

Digital key transfer

Share your vehicle conveniently with family and friends using the Mercedes me app. Share your vehicle with friends and family members - no matter where you are and simply via the Mercedes me app. You remain in control and decide who you leave your Mercedes to. You can use the app to unlock your vehicle remotely and activate the stored vehicle key for the user in the vehicle.

Mercedes me

Additional Mercedes me connect features*

Alexa Home Integration with Mercedes me

connect: Conversations with Alexa are now more fun when the systems connect with your Mercedes Benz via cloud and give you real time updates. This feature can be used from an Alexa Echo device setup at home, office or also from phone's Alexa App. The command starts with "Alexa, Ask Mercedes to...." or directly initiate a command by saying "Alexa, tell Mercedes to <command>".

Google Home integration with Mercedes me connect: Google Home integration is also offered for Google home users. In a similar way, once the Mercedes me connect is linked to Google Home, you can start issuing commands.

Parking location POIs (Points of Interest): The introduction of new Parking solution, shows Parking lots available across different parts of the cities. The Parking POIs (Points of interest) can be seen easily on the navigation system or alternatively also on the Mercedes me App maps section.

*Please note that certain services are offered free of cost for a period of three (03) years and may be chargeable at the expiry of three (03) years from the date of activation of such services. If you wish to continue using those services, you may renew the same through Mercedes Me Store (as and when it is available). Please get in touch with your preferred Franchise Partner for more details.

Mercedes me connect allows drivers to stay in touch with their vehicles from anywhere in the world and to obtain assistance at the touch of a button.

Mercedes me

Vehicle Monitoring

Vehicle Tracker: Track your vehicle from anywhere, as your vehicle's GPS coordinates are seen on your phone App.

Parked Vehicle Locator: It can locate your parked vehicle within a radius of 1.5 kilometres and show you on a map how to make your way back to the vehicle.

Navigation Connectivity package

The combination of the standard-fit communication module (LTE) and the hard-disc navigation makes sure that you always reach your destination as quickly as possible by the best route.

Vehicle Set-Up

Remote Retrieval of Vehicle Status: Information on Mercedes me App or the Mercedes me Portal.

Remote Door Locking and Unlocking: You can conveniently remotely lock or unlock your vehicle from the Mercedes me App.

Speed Alert: Receive an alert if your vehicle exceeds a certain speed.

Send2Car function: Send your address to your vehicle via an app.

Remote Engine Start

Mercedes-Benz emergency call system

The Mercedes-Benz emergency call system can save you vital minutes in an emergency. If an accident is detected, a communications module with its own SIM card automatically triggers an emergency call which could shorten the time until rescue services arrive.

Please note that certain services are offered free of cost for a period of three (03) years and may be chargeable at the expiry of three (03) years from the date of activation of such services. If you wish to continue using those services, you may renew the same through Mercedes Me Store (as and when it is available). Please get in touch with your preferred Franchise Partner for more details.

Mercedes me

Vehicle Finder (enables horn and light flashing)

Find your vehicle in large parking lots with ease. Simply blow the horn or flash the headlamps through the app to locate your vehicle

Mercedes me Service app: Your digital assistant

Keep a tab on your Star's maintenance with ease. Get timely maintenance and service reminders. Book a service appointment and search for nearest showrooms with a single touch.

What's more, access expert tips to keep your Star in its best shape with car care videos.

Geo-fencing

Set a perimeter for the car movement and receive notifications in case of vehicle movement beyond the parameter. Hence the feature enables easy monitoring when vehicle is being driven by others.

Windows/sunroof open close from App

Open/Close the windows and sunroof of your Mercedes-Benz remotely through the app. This enables better ventilation before you get into the car.

Mercedes-Benz GLS

Safety

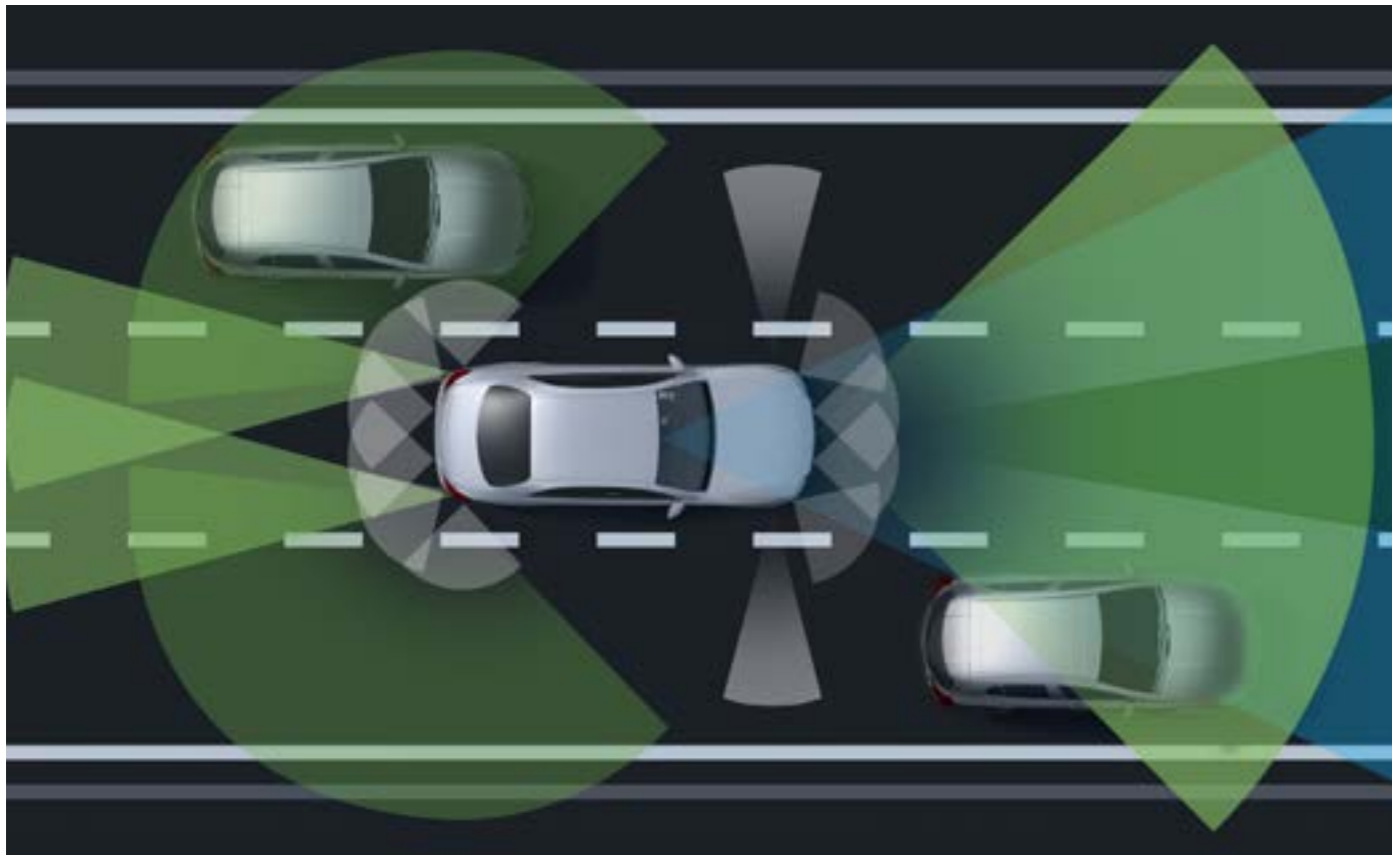

Sidebags in the rear

Side airbags in the rear can protect the chest area in the event of a side impact. The side airbags in the rear can protect the chest area on the outer rear seats in the event of a serious side impact. To do this, air cushions are pushed between the door side or rear side panel and the passenger. Together with the standard window bags, they can help prevent injuries or reduce their severity.

Knee Airbag

Knee airbag to protect the legs in the event of a serious frontal crash. The knee airbag protects your legs from contact with the steering column or instrument panel in the event of a serious frontal crash. This can prevent or mitigate injuries. The air cushion unfolds in milliseconds and stabilizes the entire body. This means that the entire restraint system, including the seat belt, works together as well as possible. Wearing a seatbelt is necessary for this feature to activate.

Parking Package with 360-degree camera

Extensive support when parking including 360° camera, Active Parking Assistant and Parking Assistant PARKTRONIC. The Active Parking Assistant with 360° camera makes it easier for you to find a parking space as well as park and unpark. You have the choice: park confidently yourself thanks to all-round visibility – or simply have it parked.

Driving assistance package

The Driving Assistance Package offers maximum comfort and safety on the road to autonomous driving and turns your Mercedes-Benz into a thinking partner. One highlight is Active Stop-and-Go Assist, which can significantly take the strain off you when driving on the motorway in stop-and-go traffic.

Blind Spot Assist

Blind Spot Assist takes a very close look for you – in particular as soon as you actuate the turn indicator. The system is thus able to give you a visual and audible warning of side collisions with other road users in the blind spot. After your trip, the system still remains alert and warns you if you open the door at the wrong time.

Power closing

Convenient electrical tightening and closing of vehicle doors. The servo closing function pulls your doors gently and almost silently into the lock. All you have to do is close the doors until they click into place - your vehicle will do the rest for you.

KEYLESS-GO Comfort Package

Convenient vehicle access including KEYLESS-GO access and driving authorization system as well as HANDS-FREE ACCESS. Start and lock your vehicle conveniently by simply carrying your key with you. With the HANDS-FREE ACCESS function, you can also open and close the tailgate fully automatically and without contact.

Upholstery

ARTICO man-made leather macchiato beige / black
(Available with Polar White and Selenite Gray)

ARTICO man-made leather Bahia brown / black
(Available with Sodalite Blue, Obsidian Black)

ARTICO man-made leather black
(Available with High-tech Silver)

Trim Options

MANUFAKTUR high-gloss black flowing lines piano lacquer

Alloy

53.3 cm (21-inch) 5-triple-spoke light-alloy wheels, painted high-gloss himalayas grey with a high-sheen finish

Genuine Accessories

Hub cap, star with laurel wreath, for countersink diameter 66.8mm

An elegant turn: a Mercedes-Benz hub cap always adds a stylish finishing touch to light-alloy wheels. Attractive and practical: the hub caps protect the hub from dirt. The choice is yours: available in various versions and matching all Mercedes-Benz wheels. It's all about design in your Mercedes-Benz.

Valve cap, set of 4

Decorative caps for valves, chromed. Star logo embossed on front, under transparent plastic. Set of 4 in blister packaging. Also suitable for tyre pressure monitoring valves.

Microfibre cloth

Excellent cleaning effect, perfect protection: The white microfibre unbranded cloth allows you to achieve the best cleaning results with its untreated fabric – without scratching the sensitive screen surface. The cloth, which is made in Germany, is washable, and the excellent cleaning effect is retained even after washing.

Genuine Accessories

All-season floor mats Dynamic Squares, Set of 2

Floor mats have to undergo rigorous testing before they are deemed worthy of the star logo: durability, fade-resistant colour and a neutral odour, even after three winters of use, are all specifications which must be met without compromise. The mats are precision-tailored to your Mercedes-Benz using the vehicle's original CAD data. Can be clip-fastened to the floor of the vehicle to prevent slipping

Ashtray

The ashtray is a high-quality, practical design that ensures clean interiors and can be used in cup holders or door stowage compartments. Its large capacity and integrated ember killer ensure safety, and easy emptying and cleaning. The ashtray can also be used as a collecting compartment for coins or small parts containers and thus offers added value at any time, regardless of whether it is for smokers or nonsmokers.

Coolbox

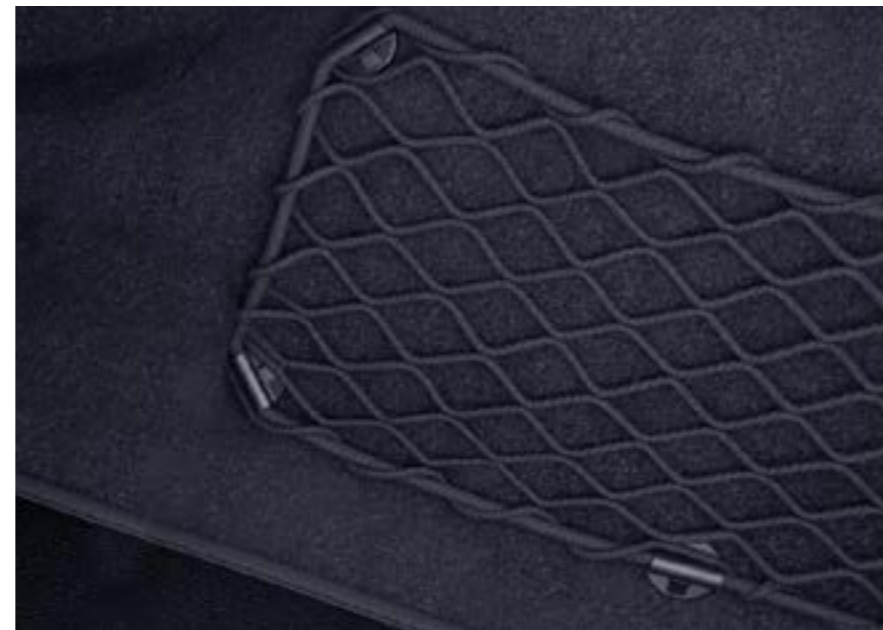

The thermoelectric refrigerator box, suitable for any day out, can cool up to 5°C with extra insulation. It fits Mercedes-Benz vehicles and holds 13 litres. The box is made of textile coating, easy to clean, and powered by cigarette lighter or 12-volt socket.

Genuine Accessories

Shopping crate, collapsible

A must for any boot/load compartment: the practical shopping crate from Mercedes-Benz – a flexible transport and stowage accessory. When not in use, it can be folded flat and stowed away in the load area. Only genuine with Mercedes-Benz logo and lettering. Another indispensable accessory for your Mercedes-Benz

Front passenger footwell storage net

Small parts can be optimally stored using the storage net in the front passenger footwell. The position in the footwell allows quick access to things that should be easy to reach. For example, parking disc, ice scraper or charging/adaptor cables can be practically stored and are within reach whenever they are needed. Assembly must take place at a workshop or a specialist retailer.

Exterior car care kit

- Complete set in high-quality leisure bag with Mercedes-Benz logo
- Two versatile care products: Car shampoo and rim cleaner with sponge and glove
- Practical: Car sponge and car cloth (imitation leather)

Mercedes-Benz Services

Advance Assurance Program

Extending your warranty coverage

With Advance Assurance Program, experience complete peace of mind. While this Extended Warranty Program kicks in the moment your standard 3 years warranty comes to an end, it can be extended further up to 6 years at a nominal price. Also, it comes with a bouquet of privileges for a worry-free time with your Star.

Star Ease

Delivering the best-in-class value

Servicing your Star does not get any better than this. With the STAR Ease Maintenance Packages, pay a defined cost of maintenance based on the model, contract period and mileage and say goodbye to spending on service every time. Plus, enjoy exclusive features like priority handling, shorter waiting time and quicker processes.

Mercedes-Benz Services

Mobilo

Providing you 24x7 mobility support

Your vehicle comes with Mobilo which provides round-the-clock on-road assistance service. Mobilo comes as a standard for 3 years and can be extended further up to 8 years at a nominal cost. This service offers privileges like vehicle towing facility, replacement vehicle, hotel accommodation, just to name a few.

Digital Service Drive

Ensuring convenience and transparency of service.

Servicing your Star is the last thing you will ever have to worry about. We provide transparent, convenient and hassle-free service. Our customer-friendly service features work around your busy schedule so that you have one less thing to focus upon.

Mercedes-Benz Services

Mercedes-Benz Genuine Parts**

Now with 2 years of warranty

Mercedes-Benz Genuine Parts are crafted to the state-of-the-art standards of Mercedes-Benz, protecting your vehicle's performance while maintaining the style, comfort and safety, for the years to come. Also, they come with a warranty of up to 2 years, ensuring you a peaceful ownership experience with your Star.

**Terms and Conditions apply.

Premier Express Prime*

Because we value your time as much as you do

Life gets busy and so we have designed Premier Express, our vehicle care service to help you get in and out quickly. While the visit will be brief, the service offered by our technicians will be comprehensive and complete. All to ensure your Mercedes-Benz is running for miles to come.

*Available at selected locations and will be expanded to more locations.

Mercedes-Benz Services

Mercedes-Benz Approved Tyres and Alloys

Ensuring every ride is a safe and joyful one

Maximise the safety and comfort of your Star with Mercedes-Benz approved tyres and rims. While the Mercedes-Benz approved tyres are designed to optimally match your car's performance, the Mercedes-Benz approved rims are designed to lend an exceptional style to the exterior of your Star and are also engineered for optimal performance.

Mercedes-Benz Genuine Chemical Products

Because your Star deserves nothing but the original

Mercedes-Benz Genuine Chemical Products are specially tested for compatibility with the materials in our cars and meet the high quality standards. Also, our products have been approved under Mercedes-Benz Group AG's strict, self-imposed environmental norms. Now with Mercedes-Benz Genuine Chemical Products, experience a whole new world of superior products that support throughout the car's life cycle.
